Most of the data we find online today and historically regarding to the people groups living in the Middle East seem to only go back to the same time frame as Old Testament Biblical stories and not before. It is hard to find data about the original tribes living in these area's because it seems as thoug it is a BEST KEPT SECRET especially when it come to Scandinavian tribes. We are now finding that Scandinavians were the rulers of many pre Biblical cultures after the last Geophysical Pole Shift aka the Younger Dryas period known also as the Flood of Noah period in human history.

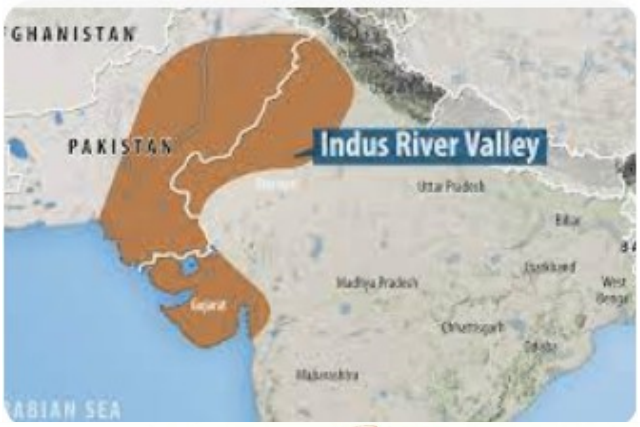
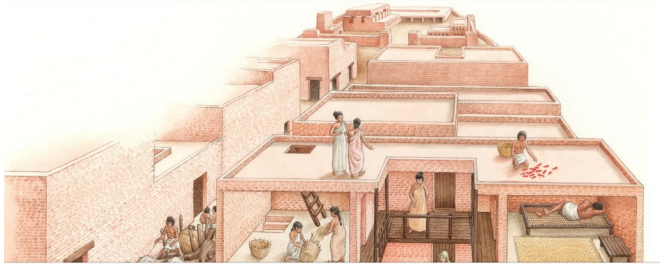
The Aryan race settled in Sumer and expanded to Egypt after the flood waters receded. The Reptile-Aryans were based largly in Babylon.

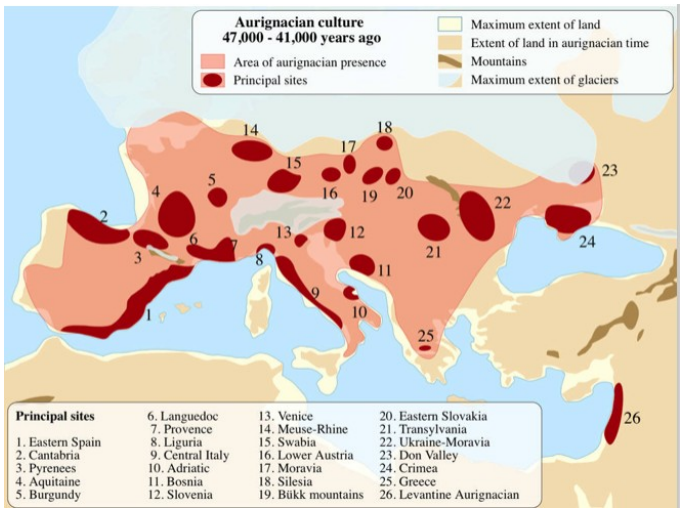
Reconstruction of a Proto-Indo-European male of the Yamna culture.

Sumer was first settled between 4500 and 4000 bce by a **non-Semitic people who did not speak the Sumerian language.** One of these earlier settlers are referred to as proto-Euphrateans**.** When you look at names of tribes that far back what you find is that tribes with names that end in ian tend to refer to or include Scandinav**ian** tribes. They are the proto-Indo Europeans or the ORIGINAL race before the Indus valley tribes from the Middle East beegan to moved in to Europe.

AGE	TOOL INDUSTRY		Date B.C.
	(Indigenous)	(Intrusive)	
Mesolithic	Tardenoisian, Maglemosean	Azilian	7,000
			10,000
Upper	Romanellian, Masovian, Hamburgian, etc.	Magdalenian	
			14,000
	Late Perigordian (Gravettian)	Solutrean	
			18,000
Paleolithic			22,000
		Aurignacian	
	Early Perigordian (Chetalperronian)		
			35,000
Lower Paleolithic	Mousterian Industry		38,000







Solutr**eans** were known in archeological records as INDIANS who came from the Indus Valley. Therefore, national tribal names ending in **"ean**" usually carry Indian Blood or Indian DNA. The Solutrean Indians who bred with the Scandinav**ians** produced a mixed Scandinavian Indian bloodline race known as the Aurignacines who may have produced he Basque race. The name also tells us that their Scandi**navian** projentors may have become the Nazar**enes** who followed Jesus as the Nazarene, Naphtali, Apiru race in Northen Israel.
